

MAGIC VALLEY

Criminal Gang Identification and Documentation

Tuesday, October 1, 2013

8:00 AM - 5:00 PM

LOCATION

College of Southern Idaho
Room 276 of the Taylor Building
Twin Falls, Idaho

Gangs are plaguing cities and towns across the United States at a rapid rate. Gang membership and migration has greatly increased with gangs spreading from urban areas to suburban and rural communities. With the spread of these gangs comes crime, violence, drugs, and decrease in quality of life conditions. Officer safety has also been significantly affected by gangs and their violence.

Do gangs exist in Idaho and in the Magic Valley? How do you identify gangs? What types of information should you collect and what do you do with gang information you are collecting? How can you share gang information? Who should be involved in gang identification and documentation?

These are great questions. Attend this training, get the answers and learn more.

Criminal Gangs is a FREE, one day course. Topics will include:

- Idaho and U.S. gang history
- Current Idaho gang trends
- Idaho gang identification
- National gang influences and special gang threats (Ethnic, Street and Prison gangs, Outlaw Motorcycle gangs, etc.)

This course is designed for all members of the law enforcement community, from administrators to the officer in the field. Corrections officers, probation officers, school resource officers and investigators are encouraged to attend.

The instructor is Brian Holland, a member of the Boise Police Department Gang Unit, currently assigned to gang investigations. He is an Idaho POST certified instructor in gang identification and documentation and recognized as a gang expert in Ada and Canyon County courts. With his extensive experience in this area Brian is extremely qualified to provide the information you need and answers to the questions you have.
